TIMES FREE SCHOOL **WILL TEACH ACTUAL** SCIENCE OF COOKING

Interest Increased by Manner in Which Lessons Have Been Defined.

SEEK TO END DRUDGERY

Demonstration Will Show Easiest and Most Effective Methods for Kitchen.

Interest in the free cooking school and food show The Times is preparing to give every day next week at the Arcade Auditorium has been especially aroused by the manner in which the scientific cooking lessons have been defined by those in charge. Mr. and Mrs. Sherwood P. Snyder, of the West-field Domestic Science and House-Appliance Exposition, who have been secured by The Times and the McClure publications to conduct these lectures and demonstrations, wish to impress upon the housewife that their work is scientific in the true sense of the word. Scientific means useful knowledge acquired by observation and practice, they state. Thus, the women who have discovered the most efficient way to clean their kitchen sinks have discovered the most scientific way of

Drudgery Eliminated.

Scientific, therefore, means the most efficient way of doing the work of the household and the value of the lectures and demonstrations lies in the fact that the lecturers and demonstrators have been trained to observe household methods and have worked out a practical way to solve all home problems so that household drudgery is eliminated.

The lectures by Mr. Snyder at cooking classes in other cities have been largely attended. Unlike many cooking demenstrations nothing is left to the imagina-tion of the audience. Everything enter-ing into the recipe is shown to the class and explained. The mixing, bak-ing, and care of the article after cook-ing is carefully explained. These cooking demonstrations are conducted in full view of the class in a model sitchen on the stage. The kitchen is in blue and white tiling, and continued with all the latest time and labor saving de-

The baking contest winners will be rewarded with prizes of a substantial character, ranging from an automatic cook stove, a kitchen cabinet or a vacuum cleaner to a barrel of flour or a case of spices. The judging is done by Mr. and Mrs. Snyder. Afterward the entries are turned over to a committee from the Assessment of Sarting and the effectively to force the various due to the various from the Associated Charities and the articles sold, the money being a gift from The Times to further the work of that association. In other cities sums ranging from \$50 up have been secured.

Free "Movies" Too.

educational motion pictures at night, which are also free, will give everyone an opportunity of seeing how the nationally known foods are prepared. Some 25,000 feet of film will be shown, there being a change of pro-gram each night. One of the newer ac-quisitions for the motion picture enterconsistions for the motion picture enter-tainment is a two-reel recent release en-titled "A Tru to New York With John Hough." The story is interesting, and shows the exciting adventures of the bread man in the big city. Aside from the educational netures, new reals of bright comedies will be shown from time to time. One of the best and newest is a recent release called "The Baby," in which are featured Rosemary Theby and Harry Meyers, two popular stars.

SEES UNITED STATES AS WORLD'S BANKER

Warburg Tells Credit Men What Business Must Do to Preserve Stability.

NEW YORK, Jan. 26.—The United States, maintaining its creditor posttion, will be so greatly strengthened 000,000. Bs compared with the nations of Successfully to bring about the stability of interest rates," said Mr. Warbecome the world's banker regard-burg, "two things are becessary-first,

for the present destroyed the power of interest rates to direct the flow of yold," said Mr. Warburg, "sooner or let r normal laws of contomics will auxin assert then selves, and we must expect that, owing to the incarion of contract created in almost the demand for our gold will be very Leen and determined. We may then large to part with very large sums of Archibald Hopkins was rected charged but we must so direct our course man of the heavy to succeed I refuse to be able to control this outflow as to be able to control this outflow and let this take place without creating of the beary to succeed I refused to the take place without creating of the beary to succeed I refused to the take place without creating of the beary to succeed I refused to the take place without creating of the beary to succeed I refused to the take place without creating of the beary to succeed the place without creating ing disturbances in our own economic life."

Hold In Reserves.

The United States, Mr. Warburg asserted, must "keep its powder dry" by holding in reserve the essential strength or the Federal reserve banks, not only to meet any possible drain or emergency, but also, so far as possible, to offer a check to inflation.

theck to inflation.

He maintained that this country must greatly increase the degree of its control over its current gold supply, assembling as far as possible even the gold carried in the pockets of the public; that it must take care not to destroy at this time the basis of its future lending power, and that all foreign leans during the war should be of reapenably short duration so that control with this country's gold might be kept in Adams.

Faust, and Walter S. Ufford.

Trainmen Have Ball.

The annual ball of Columbia Lodge, No. 484, Brotherhood of Railroad Trainmen, was held last night at National little Armory.

The committee on arrangements included D. S. McMahon, chairman, Hawpensbly short duration so that control with this country's gold might be kept in Adams. this country's gold might be kept in Adams.

From left to right-MLLE, VALENTINE KACHOULA, who was declared the prettiest girl in Moscow: DERHE DE DIAZHILEFF, the famous impresario, who founded the ballet, and MLLE, IUBEV TCHERNICHOWA, one of the principals in the ballet. All arrived in New York for their first American engagement, aboard the French liner La Fayette.

rease there should later be need to use it.

"That will give us a strategic position at the end of the war," said Mr. Warburg, "so strong that we shall be able effectively to face the various duties that will confront us, not only toward our own country, but toward the world at large. If a policy of general conservation, such as I have outlined, can be systematically maintained, thereby securing the strength of our banking position, we shall in due course reap our rewards. reap our rewards.

Be Not Afraid; Go Ahead.

"I believe that we may say with reasonable assurance to the business and intelligence in meeting any emergency the future may have in store for

"It will be for the American business man and investor to decide to what de-gree the United States shall become a nation of world bankers. Our great prosperity should not make us forget those oportunities almost beyond measure lying at our door, and which, on account of our recent prosperity we should not be guilty of neglecting."

Educated to Reserve Act. The Federal reserve act, according to

Mr. Warburg, could never have been passed had not the entire country been lice department, the Parkhurst Society gradually educated to it. It has helped and the Society for the Preyention of to strengthen the financial condition of Vice who were present appeared to be the United States to such an extent that the United States to such an extent that he described panics, until recently rehe described panies, until recently regarded as inevitable, as "phenomena of the past. He pointed out that the present maximum lending power of the Federal reserve banks on a gold basis of 40 per cent was about \$600,000,000, while the total leans and investments by national and State banks and trust companies was apportionately \$22,000,000,000.
